ADDITIONAL DETAILS

University administration experience: Professor P.N Botsaris is Former Deputy Rector of Research and Innovation of Democritus University of Thrace (DUTH) as well as Former Head of the University's Research Committee (SARF) responsible for the research and development of the university from 2013 to 2018. Major responsibilities included: management of SARF Committee yearly budget (about 17 million EURO per year), management of research funding from any type of source, acquiring new funds for the university. Major accomplishments included: a) negotiation and securing funding for new educational and research equipment for the university with an approved budget of 6 million EURO by the Region of East Macedonia and Thrace; b) establishment of an innovation and entrepreneurship unit (project originally financed by the Greek Government - first

phase budget 600.000 EURO). DUTH's Innovation and Entrepreneurship Unit (IEU) aims at the developing the entrepreneurial culture and thinking of the young people through actively supporting and equipping students and graduates with the necessary knowledge, skills and capabilities to develop entrepreneurial careers. Such a structure never existed before at DUTH while it is continuously supported after the ending of original finance.
